

PLANNING EXHIBITION...

Sibelco Leziate Quarry Grandcourt Quarry extension

Sibelco is a leading supplier of specialist sands for a wide range of end uses including glass manufacture. The Company (and its predecessors British Industrial Sand and WBB Minerals) has operated in the local area for over 60 years and is part of the local community in which it operates.

The Company has been operating Grandcourt Quarry between Middleton and East Winch since 2008. The site supplies much of the sand for clear glass manufacture in the UK. End uses of the local sand include clear bottles, car windscreens and windows for homes. Almost all the sand is supplied to customers by rail.

The Company has identified a high quality sand deposit adjacent to Grandcourt Quarry and is preparing a

planning application to seek to extract the sand and restore the site to complement the permitted restoration already underway at the adjacent quarry.

The planning exhibition will present the findings of studies undertaken, explain the proposals and seek views of the local community before making an application to Norfolk County Council.

Sibelco will be holding planning exhibitions at East Winch Village Hall, Station Road, PE32 1NR on;

Friday 13th November 4:00pm to 8:00pm

Saturday 14th November 9:30am to 2:00pm

Company representatives will be present to discuss the outline proposals.
